EXHIBIT 2-M

MONTANA COMMUNITY DEVELOPMENT BLOCK GRANT (CDBG) PROGRAM CONSOLIDATED ENVIRONMENTAL ASSESSMENT FORM

Introduction

The following form is for the use of Community Development Block Grant (CDBG) recipients who must prepare an Environmental Assessment (EA) as required by HUD Environmental Review procedures for the CDBG program (24 CFR 58.36). Satisfactory completion of this form will meet the requirements of the federal housing and Community Development Act as well as the national Environmental Policy Act (NEPA).

CDBG recipients must also demonstrate compliance with the environmental requirements of the other related federal environmental laws and regulations listed in the HUD Statutory Checklist (24 CFR 58.5). For this reason, the Statutory Checklist requirements have been combined into this single consolidated form. An index of the applicable federal statutes and regulations is found at the end of this form. Where noted, the numbers that appear to the right of the environmental subject areas listed in the checklist correspond to the listing of statutes found in the index.

The requirements of the Montana Environmental policy Act (MEPA) and the uniform State administrative rules adopted pursuant to the Act have also been integrated into the consolidated form.

Instructions for Completing this Form

The following instructions should be presented and evaluated in a level of detail which is appropriate to the following considerations:

- (a) the complexity of the proposed action;
- (b) the environmental sensitivity of the area affected by the proposed action;
- (c) the degree of uncertainty that the proposed action will have a significant impact on the quality of the human environment;
- (d) the need for and complexity of mitigation required to avoid significant environmental impacts.

In all cases, the CDBG grant recipient should reference and attach additional narrative providing the specific information requested or documentation supporting the evaluation of the impact of the proposed project or activity as it relates to each environmental subject area. The narrative should also note, where applicable, the source of the evaluation, including date of contact, page reference to pertinent source documents, and the name and title or persons contacted, along with the name of the specific organization or agency.

Environmental information and assistance in preparing an environmental assessment can be obtained from a wide variety of sources. Possible sources of information include existing plans and studies, knowledgeable local residents and officials such as the county sanitarian, city or county planning board or department, local officials with the U.S. Soil and Conservation Service (SCS) or local conservation district, as well as local representatives of the State Fish, Wildlife & Parks Department, to list just a few examples. Grant recipients may also contact the State and federal agencies listed in **Exhibit 2-O** for information and assistance.

The Department of Commerce Community Development Bureau maintains copies of environmental assessments prepared on previous projects that may be useful to grant recipients, as well as full copies of applicable federal and State environmental statutes and related information. Copies of the HUD publication, *Environmental Review Guide for Community Development Block Grant (CDBG) Programs*, can be requested form the CDBG program specialist assigned to your project.

Evaluation of Environmental Impact

Provide the information requested below and attach additional narrative as appropriate.

1. Describe the proposed action or activity, including construction and end-product (attach maps and graphics as necessary).

2.	Describe the project site and surrounding area(s), including existing site use and environmental conditions (attach map as applicable).
